## A NEW BELLEVUE SUMMER CHAPTER IS ABOUT TO BEGIN ...

Dear Friends, Dear Guests, Dear Family,

Le Grand Bellevue has its privileged setting in one of the most picturesque towns in the world. The aged wooden chalets with flowers overflowing their balconies and stone paths leading through trimmed natural lawns; Shopping diversity from local artisanship at the Alpenruhe, to the finest of the world's fashion and watch houses. Beyond, patchwork green fields cover the undulating hills whilst the mountains majestically crown the panorama. Waterfalls bearing glacial waters flowing down into sublime lakes and gentle rivers to bathe in. It really is heaven here.

Your true luxury however lies within our walls; or more precisely, within the hearts of our incredible team. Their unbelievable devotion, knowledge and passion is infectious and awaits your arrival. From the moment you arrive, you may be greeted by the omnipresent smiles of Edgar, Jose, Luis, Marco or Ricardo; Encounter Olivier's deep local knowledge, or fall for Manuela's imaginative cocktails. Chef Francesco and the team have created masterpieces of cuisine blending in local flavours and herbs into timeless classics such as our Krug Herbal Burger, or wild garlic gnocci. Our spa team have some magical experiences to tone out any of your troubles, such as Kasia's sound session, or the expansive rituals.

I could go on and on...but I will leave it to you to discover for yourselves.

Enjoy these thoughts and journeys in the pages to come, as we await you with open arms and full fridges...!

Today, he delights in recommending and serving exceptional wines at Le Grand Bellevue, drawing upon the thrill of hidden gems from local Swiss wineries.

# HEAL THROUGH KASIA'S SOUNDS

Introducing the spirit minded  
**Katarzyna Pajak, also called Kasia.**

Born in Poland, she found herself in Switzerland unexpectedly, drawn by a desire for diverse experiences as a physiotherapist. After an adventurous journey starting from Bali, an opportunity with the Six Senses brand in Switzerland brought her back to Europe.

With a background in music from a young age, Katarzyna developed a deep fascination with sound and its effects on the body and mind. This passion led her to explore various instruments and ultimately delve into sound healing, where she found a profound connection to the therapeutic power of sound.

Katarzyna describes sound healing as a transformative experience that allows our guests to regain inner balance and peace. Through sound sessions, individuals can tune their minds, emotions, and body systems, relieving stress and gaining clarity to make better choices and feel more regenerated. The result is a sense of lightness, joy, and elevated perspective, especially after personalized sessions tailored to your individual needs.

*Just like a musician tunes an instrument, a sound session retunes your mind, emotions and body systems.*
